

PREVIN - preparation for blood vessels

	❖ Healing and prophylactic preparations ❖ Previn
	Vendor code: 60504
	BUY PREVIN
Description	
This preparation is based on hesperidin, nicotinic acid and plant components. It has a powerful antioxidant and angioprotective action. Dilates blood vessels, improves microcirculation, promotes removal of venous stasis, strengthening the walls of blood vessels and capillaries, decrease the blood pressure, at that prevent from development of stroke and heart attack. Nicotinic acid which is part of the preparation actively participates in oxidation–reduction reactions transforming sugar and fat into energy, has a positive effect on lipid metabolism and helps reducing of cholesterol levels in the blood.	
Directions	
Adults and children over 14 years: 1 tablet a day during mealtimes. Duration - 4-6 weeks. If necessary, you can repeat. Possible re receptions throughout the year.	
Ingredients	
MCC (regulating agent sticking), L-arginine, hesperidin, lactose (filler), choline bitartrate, green tea extract, niacinamide (vitamin PP), aerosil (the flowing agent), calcium stearate (the flowing agent).	
Recommended application:	
• as an additional source of hesperidin and niacinamide • as vasodilatory and antioxidant effects • for the prevention of stroke and heart attack • for a reduction of blood cholesterol • to strengthen the walls of blood vessels and to increase the blood flow	
Main components	
Hesperidin is a flavonoid found in citrus fruits. It helps form collagen in connective tissue. Hesperidin is a potent antioxidant; supports and activates the action of many other	

antioxidants, protecting them from destruction. It has an antispasmodic activity, causes vasodilatation, improves microcirculation, has blood vessel-stabilizing effects, normalizes rheological properties of blood and permeability of capillaries, contributes to decreasing venous stasis, reinforces tone of blood in coronary arteries, decreases blood pressure and stops bleeding. Hesperidin helps for treating mycosis, arteriosclerosis, ulcers, allergies and tumors, easing smooth muscles of blood vessels and bile ducts.

Form release:

30 tablets of 0,5 g.
